Deputy Commrs. Office
Shimoga District,
14 December 9.

From

S. Narasimmayar Esquire,
Offg: Deputy Commissioner,
Shimoga District.

To

H. Ramanya Esquire
Asst. Secretary to Govt
in charge Local
Boards Branch.

Sir,

I have the honour to report that recently rats have been found dying in several places in Doddpatta and Rangarekere in the Town In one house near the latter as many as 13 are said to have died. The significance

of

of this has been duly explained to the inhabitants of these localities on the 12th instant, two cases of fever observed in a cottage in the Islapur extension were, under medical advice, removed to the Plague Camp where they are now under treatment. The same evening a suspicious death having occurred in house No 2,269 in Endadakere, the house was visited by the Civil Surgeon and the Vice President who there found a woman by name Krishnabaiye suffering from fever which has been declared by the former as a case of Plague. This patient

as being prevailed upon to re
move to the Clague Camp, a
while fever with which a Marwadi
goldsmith was laid up some
days since in Dad-patta, de-
veloped into Clague and
he expired last night

2. In these circumstances,
the Downspeople pray for help,
as in last year, in regard
to grant of bamboos &c to
enable them to camp out
in order to keep clear of
infection as far as possible
a precaution now absolutely
necessary to arrest the spread
of Clague which as above re-
ported has after all unfortunately
re-appeared

re-appeared in the heart of the Town. Unless the population in the congested parts are in this way allowed to scatter, it is feared, that infection might find easy way into the Town, to the detriment of all interests concerned The Civil Surgeon concurs in this view.

3. I accordingly request the Government will be pleased to sanction at once just the same concessions with regard to the grant of bamboos &c to people in the Town of Shimoga as were authorized last year in Govt Pro: No 329-31 H.F.7.14.95 of 23rd November 1900

The favour of an early reply is requested
